Makaton

Talking does not just involve speaking. Watch someone talking, they will also be using gestures, facial expression, eye contact and body language. All this is communication. Makaton uses speech with signs (gestures) and symbols (pictures) to help people communicate. Would you like to learn some useful signs to use with your child?

As part of our Coltales programme (City of London Talks and Listens Enthusiastically) we post Makaton videos every Wednesday on our social media platforms. Follow us on Instagram, Facebook, Twitter or search [#ColtalesTopTips](https://www.instagram.com/coltales)
