Makaton

Talking does not just involve speaking. Watch someone talking, they will also be using gestures, facial expression, eye contact and body language. All this is communication. Makaton uses speech with signs (gestures) and symbols (pictures) to help people communicate. Would you like to learn some useful signs to use with your child?

As part of our Coltales programme (City of London Talks and Listens Enthusiastically) we post Makaton videos every Wednesday on our social media platforms. Follow us on Instagram, Facebook, Twitter or search [#ColtalesTopTips](#)

Make a new year resolution to ask your child more open ended questions this year!

Children need plenty of open ended questions to support their language development and help them think for themselves. Here are some examples when talking to your child.

Have a go at asking questions like this...

I wonder if?

What do you think might happen?

Tell me about?

How do you feel about?

Enjoy the conversations you have with your child!

Coltale's New Book!

If your child attends an Early Years setting they will be bringing home a book called **"The Further Adventures of Coltale the Dragon"** this month. These are stories inspired by the children of the City of London. Well done everyone involved.
